ORDER

This matter is before the Court on Defendant's Motion for Clarification of Judgment. Defendant's Motion, filed by counsel, is essentially identical to Defendant's previous *pro se* Request to Suspend Restitution Payments pending the start of her supervised release period. *See* D.E. #25. The Government once again opposes Defendant's motion. Through the Inmate Financial Responsibility Program, Defendant is required to make monthly payments of \$267.00. Defendant still owes more than \$850,000 in restitution. The Government reasserts that it is actively pursuing collection of the money owed by Defendant and believes assets that could be used to pay the restitution this Court ordered are still being hidden. The Court finds the Government's objections valid, and, accordingly, Defendant's Request to Suspend Restitution Payments is DENIED.

SO ORDERED.

This 17 day of June, 2010.

UNITED STATES DISTRICT JUDGE
